

Calibration / Fatigue

Fatigue test bench MTS

- 1 200 kN Traction / Compression
- Frequency up to 80 Hz
- Displacement +/- 75 mm
- Space between columns : 711 mm x 406 mm
- Maximum test height : 2 800 mm

- 4 000 kN T/C
- On request for upper range
- MGC data acquisition system
- Multi axis balance calibration
- COFRAC link calibration
- COFRAC, ISO 376, according to your specification
