

Design and manufacture of standard or customized sensors, electronic systems and instrumentations used in

Oil & Gas Industry

Product specifications

- Single or bi-axis load pin
- Traction - compression sensor
- Low level mV/V, 4-20mA, 0-10V, CAN...
- Dual or triple channel
- Single or double measurement span
- Range : 5N to 30 000kN
- Submersible: up to 100kN & 14 500 psi

Applications

- Mooring system, Winch
- Pipelay & Clamping system
- Chain stopper, Mooring buoy, Tensioner

Calibration test bench

- Traction / fatigue up to 1 200kN
- Compression calibration up to 4 000kN
